## How Do You Receive Home Health Services?

With one phone call, our Home Health Team will work with you, your doctor, and family to develop a personalized in-home care plan. We will contact your insurance carrier to determine what services are covered by your health plan.

Our Trained and certified professionals, together with you and your doctor, will establish a home care plan designed to reach your goals when recovering from a procedure or simply maintaining good health through medication management.

At All-4-One we are dedicated to overseeing your healthcare for as long as you need it. When you are no longer homebound, we will help you organize the next level of your care, be it outpatient rehabilitation or community re-integration.

**Medical Coverage:** Any client 65 years or older, and/or qualifying for Medicare Disability may be eligible for healthcare services at home. For qualified clients, Medicare will pay 100% of the cost for part-time intermittent care provided in the home by: RN's, LPN's, Home Health Aides, CNA's and Therapists (PT, ST, and OT). For clients who are screened and qualify for Long Term Care, Medicaid will cover costs for Personal Care Aide Services.

## All-4-One's Comprehensive Services include the following:

### ✔ Skilled Nursing Care:

We specialize in managing and providing education regarding all aspects of wound care, prevention, disease management and symptom control. We provide health education and support for diabetes, cancer and other chronic conditions. In addition, we'll help supervise your medication as well as provide high tech nursing services such as I.V. Therapy, ostomy and catheter care. Our Registered Nurses follow a plan of treatment prescribed by the physician and report to the medical doctor any significant findings.

### ✔ Personal Care Aide Services:

Helps in bathing, household chores, grocery shopping, laundry and all Activities of Daily Living. We can provide 24 hour care if needed.

### ✔ Mental Health/Psychiatric Nursing Program:

Our Registered Nurses with extensive experience in psychiatric settings will assist clients in understanding how they behave and ultimately suggest ways for intervening to help change behavior to adaptive methods of coping.

### ✔ Pediatric Nursing Program

Services include taking care of sick children from the infant to adolescent stage at home.

### ✔ HIV/AIDS Program:

Our nurses play the vital role in assisting clients with HIV/AIDS in dealing with the stigma associated with the disease and treat them with the same respect and dignity accorded to other individuals.

### ✔ Medical Social Work

When you are ill or recovering from injury, you may need help with other things in your life. Our Medical Social Workers can recommend local resources for a variety of services, including counseling and emotional support for you and your family.

### ✔ Home Health Aide Services:

All-4-One has an experienced and high diverse team of home health aides to assist with activities of daily living such as personal care, medication reminders, ambulation/transfer assistance, meal preparation, ROM/strengthening exercises taught by PT/RN, vital signs, light housekeeping, errands and much more.

### ✔ Beauty Parlor in your Home:

The home services of a Licensed Beautician are available which include nail care, hair shampoo/setting/trim and facials when needed. Payments for each service requested is on a private basis and is charged by the hour.

### ✔ Medical Supplies:

Medical supplies needed by clients specifically to meet their medical and health care needs are provided or furnished promptly. All-4-One offers one call convenience DME contractor provider to arrange for delivery of needed supplies or equipment directly to the client's home such as, beds, wheelchairs, and diabetic supplies.

### ✔ Physical Therapy:

Our Physical Therapists work to increase your strength and mobility. We provide education on techniques to promote increased activity tolerance and independence following your illness or injury. Physical Therapy can include such things as developing a personal home exercise program, teaching you balance and fall prevention, or ordering mobility equipment and teaching you how to use it.

### ✔ Occupational Therapy:

Our Occupational Therapists will help you regain independence in all aspects of your life. At All-4-One we understand how difficult it is to perform regular activities of daily living after a serious illness or injury. We'll assist and teach you new strategies and techniques to make the transition to wellness a smooth as possible. These may include ordering safety equipment for your bathroom, teaching self-care skills, pacing and breathing techniques, and training your caregivers.

### ✔ Home Infusion Therapy Program:

Under the direction of a physician, highly skilled All-4-One nurses will administer prescribed I.V. therapies, delivering the most competent and professional service in the process. We arrange for the provision of everything that is needed for total in-home patient care, and closely monitor and supervise each patient's response and progress.

### ✔ Private Pay Program:

Home assist services provides professionals and paraprofessionals qualified home health personnel who furnish care, assistance and services on a private pay basis. Service is available from a minimum of 3 hours to 24 hours a day. This is a made to order program for those who wish more time and attention that is attainable with the comprehensive skilled nursing/therapy visit, or for family members who are in need of a helping hand and/or respite from their major care-giving responsibilities.

### ✔ Certified Home Health Aide, Personal Care Attendant, Homemaker/Companion Sitter:

Our Certified Home Health Aides, Personal Care Attendants, Homemakers, Companion or Sitters are trained in the skills that enable them to perform comparatively simple healthcare in the home under the supervision of a paraprofessional director. Personal Care Attendants, Homemakers/Companions or Sitters prepare and serve meals, do marketing, meal planning, homemaking tasks, and laundry (when facilities are available), but do not handle any of the direct client care responsibilities. Home Health Aides also assist in bathing, exercise programs, and supervision of medication.
